NEW! Trend Micro Cloud Sentry™ - Giving you a new perspective on securing business critical applications. Cloud Sentry identifies threats in minutes with no performance impact, all while

★★★★★ 25 AWS reviews | 143 external reviews

Overview Pricing Usage Support Reviews

Product Overview

Meet the needs of your cloud and security teams alike with CNAPP capabilities that provide connected protection throughout your entire cloud environment. Trend Micro Cloud One™ delivers security from commit to runtime across all major providers, integrating with the DevOps tools your organization already uses.

With Trend Micro, you gain visibility in the context of resources. See where there are risks, understand the business impact, and fix the problems all in one platform.

Cloud One is the complete cloud security platform for organizations innovating on AWS.

Cloud Sentry: Visibility of the threats in your AWS environment with quick, actionable insights in the context of your application.

File Storage Security: Security for cloud file and object storage services like Amazon S3.

Conformity: Cloud security posture management (CSPM) with automated rules and checks for 90+ AWS services based on the AWS Well-Architected Framework and industry best practices.

Workload Security: Runtime protection for workloads (virtual, physical, cloud, & container hosts) like Amazon EC2.

Highlights

- Save time while gaining complete visibility and control via integrated CNAPP capabilities.
- Gain instant visibility into your entire AWS environment and meet your regulatory compliance requirements like PCI DSS, and more.
- Retain data sovereignty of any file size or type with security for Amazon S3.

Units	Cost

Private Offer適用方法

1. 申請フォーム([こちら](#))へ、お客様にてご入力
2. AWS管理アカウントにログイン
3. 1.を入力後、トレンドマイクロから提供されたプライベートオファーURLを開く、またはAWS MarketplaceでCloud Oneを検索し、サブスクライブページにて[**Subscribe**]をクリック
4. [Offer]セクションで、プライベートオファーが選択されていることを確認
5. オファーの価格と条件を確認し、[**Subscribe**]をクリック

The screenshot shows the 'Trend Micro Cloud One' interface. At the top, it says 'Trend Micro Cloud One'. Below that, a message reads: 'You are extended multiple offers! Select an offer first and review the pricing information and EULA.' There is a dropdown menu for 'Offer name' with the selected option 'Trend Micro for SaaS 2021-05-28- Private Offer'. To the right, it displays 'By: Trend Micro', 'Offer ID: offer-zpjp44pyw3gcw', and 'This offer is going to expire on May 31, 2021 UTC'.

*Private Offer名の表記は上図と異なる場合があります

よくあるご質問

- XDR機能とは何ですか？
クロスレイヤーの脅威検知・対応を実現する機能です。お客様は、より迅速に脅威を検知し、より徹底的な調査を行って検知以降の措置をすばやく実行する体制を整えることができます。AWS Marketplace上の製品では[Trend Cloud One-Workload Security]が当機能を保有します。
https://www.trendmicro.com/ja_jp/what-is/xdr.html
- 製品はどのように利用を開始すればよいですか？
以下のオンラインヘルプをご確認ください。
Trend Cloud One製品：<https://cloudone.trendmicro.com/docs/jp/>
XDR機能(Workload Security)：<https://docs.trendmicro.com/ja-jp/enterprise/trend-vision-one/gettingstartedpart.aspx>
- 製品についてトレンドマイクロに直接確認したい、どこに相談すればよいですか？
